

AltMed Data

*The Future of Quality Assurance in **Alternative Medicine**.*

A **Complete** Healthcare Experience Solution

AltMed Data delivers the same virtual survey technology to the Alternative Medicine community that has revolutionized patient experience, outcomes, and operating efficiencies in traditional healthcare. With the identical emphasis on security and structure, we provide full-service solutions to this developing sector.

Real World Evidence in an Anecdotal Realm

The AltMed Data team is committed to providing thorough and reliable Real World Evidence (RWE) to bolster credibility and accurately measure efficiency. We support Alternative Medicine patients and providers alike to bridge the digital divide, reduce confusion, and increase the number of successful alternative treatments.

Stronger Cases for Alternative Medicine

The AltMed Data platform was conceived to equip providers with the quality data, education, and evidence needed to support the advancement of more holistic treatments for patients. There is no current benchmark for quality assurance in Alternative Medicine - something we know as a critical need for development and scale.

We **Believe** in Setting Standards

We are a team of dedicated technology, healthcare, marketing, and Alternative Medicine professionals who have joined forces and combined experience to develop the digital tools necessary to swiftly revolutionize customer quality assurance in Alternative Medicine.
