

AlitMed Data

# Insight 360 Features

## ENTERPRISE CLASS SOLUTION

Designed to be robust and scalable across large multi-state organizations. Corporate and facility level real-time benchmark comparison reporting.

## RESPONSIVE DESIGN

Web solution that automatically scales its content and elements to match the screen size on which it is viewed. No install or user updates required.

## FOUR MODES OF SURVEY DELIVERY

Web based delivery from laptop or desktop, mobile iOS skin for iPads, email send for email delivery and the preferred kiosk setup for point of service (PoS).

## FIVE DIFFERENT SURVEY TYPES

Create surveys based on the need and publish immediately. (Client/Patient, Provider/Doctor, Wellness Associate/Nurse, Visitor/Family Member and Employee.)

## LIVE VIEW DASHBOARD (LVD)

The LVD allows our corporate and facility level admins to view positive, negative, top-box, response rate and percentile rankings in benchmark trend line data.

## SURVEY LANGUAGE TRANSLATION

Google translate is integrated with our Insight Solution. Our clients can translate any survey to the language most convenient to the recipient during survey launch or PoS.

## CUSTOM SURVEYS / GLOBAL SURVEYS

Clients create their custom surveys at the facility or corporate level. Global surveys are offered to take part in greater initiatives such as CAMPS for global compare data.

## REAL-TIME REPORTING

All provided reports are available immediately. (Business intelligence practice that consists of gathering up-to-the-minute data and relaying it to users as it happens)
